## Patterns for flat knit stockings

The patterns can be combined with all standard and trend colours and are available as Design-Elements (single-coloured) and Fashion-Elements (two-tone).

Available for mediven 550, mediven cosy and mediven esprit.

Intended purposes:  
 Round- or flat-knitted medical stockings, used for compression of the lower extremities, mainly for the treatment of disorders of the venous and lymphatic systems.  
 Round- or flat-knitted medical compression sleeve or glove, used for compression of the upper extremities, mainly for the treatment of disorders of the venous and lymphatic systems.
