

juxtalite® foot options - the one stop shop

All juxta lower limb garments are supplied with a foot option as standard.

Additional foot options are available allowing you to tailor the compression system to the individual requirements of your patient.

juxtalite standard pack configuration:

To manage mild foot oedema, juxtalite is supplied with a compressive foot liner which provides 15-25mmHg in a soft, easy-to-apply liner with targeted foot and ankle compression.

juxtalite - The instantly re-adjustable Velcro wrap device suitable for the treatment of venous ulceration, mild to moderate oedema and maintenance of all venous conditions.

juxtalite additional accessory foot options:

juxta toe cap	juxta comfort liner	juxta compression anklet	Interlocking juxtafit ankle foot wrap	Closed heel juxtafit ankle foot wrap
Forefoot and toe oedema can be prevented or managed with the silky low profile juxta toecaps with light compression (20-30mmHg). The toe lengths are trimmable aiding comfort to the wearer and they can be combined with round knit off-the-shelf garments as well as with the juxta product range.	For those not requiring compression to the forefoot, the juxta comfort liner is a soft liner to be worn underneath the juxta body. (one size)	juxta Compression anklets provide light compression for the foot and ankle. Standard size: 19-36cm around foot arch Large size: 22-41 cm around foot arch	The juxtafit ankle foot wrap gives firmer support to the ankle and foot for those with more advanced swelling. It comes in three standard sizes and can be made to fit almost any foot shape. Foot length from base of toes 13-25cm.	For shorter feet measuring >16cm or patients spending long periods seated, the closed heel wrap is available.

juxtafit® foot options - the one stop shop

All juxta lower limb garments are supplied with a foot option as standard. Additional foot options are available allowing you to tailor the compression system to the individual requirements of your patient.

juxtafit lower legging standard pack configuration:

To manage mild foot oedema, juxtafit lower legging is supplied with a compressive foot liner which provides 15-25mmHg in a soft, easy-to-apply liner with targeted foot and ankle compression. It is also supplied with a black silky-smooth cover-up which can be used to prevent Velcro catching on clothing as well as give the look of a silky black legging.

Juxtafit lower legging - an instantly re-adjustable and measurable Velcro wrap device suitable for the treatment of mild to severe lymphoedema. Useful in reducing oedema in the decongestive stage of treatment, or to stabilise swelling afterwards. Effective and easy to self-manage. 12 month warranty.
