

A man with short brown hair and a light beard is smiling in a greenhouse. He is wearing a light-colored button-down shirt and a green apron. He is also wearing a blue and white knee brace on his right knee. The greenhouse has a metal frame and a translucent roof. There are several potted plants, including orange trees, in the background. The floor is made of grey tiles.

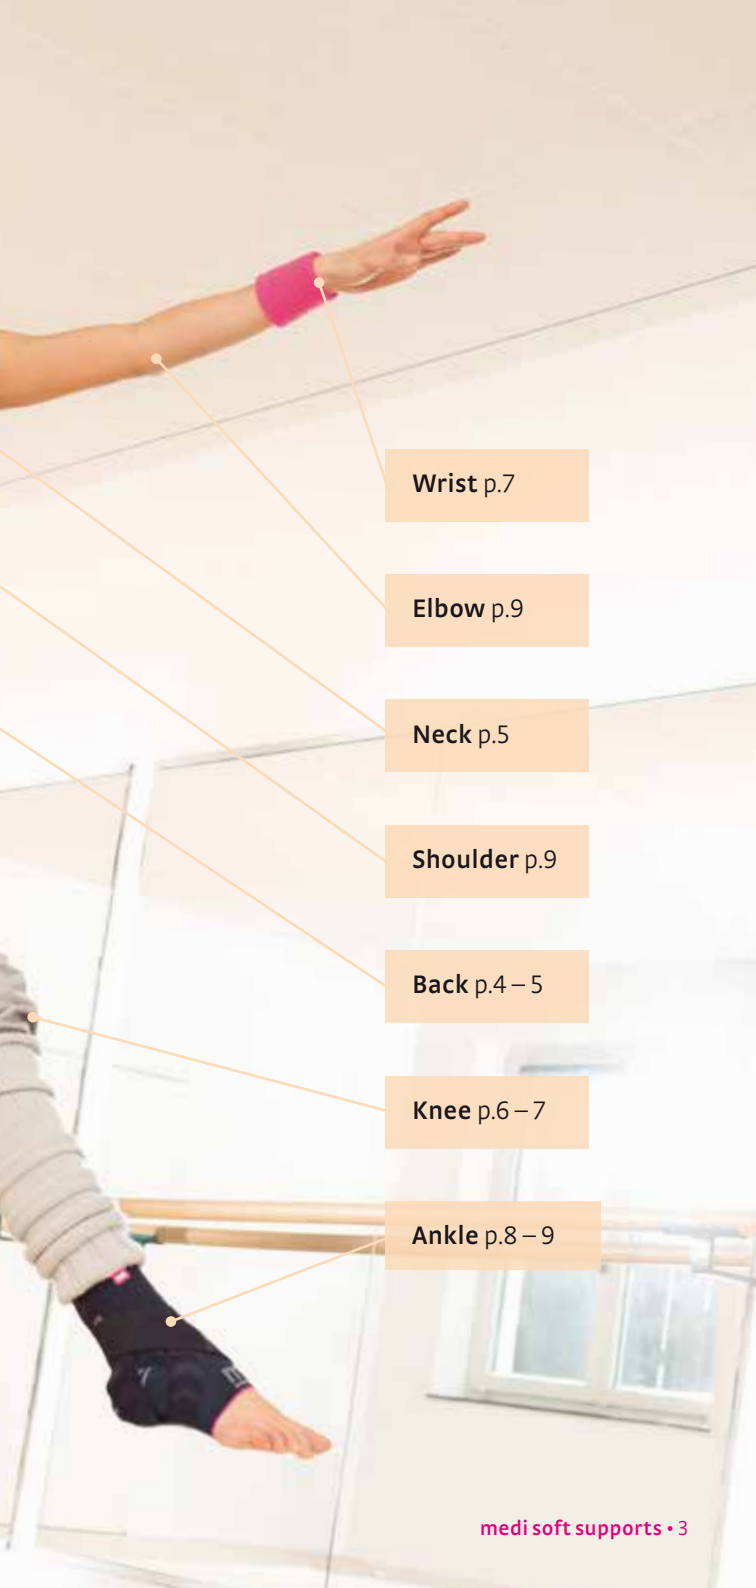

medi

medi soft supports for joint pain

medi. I feel better.

Where are supports used?

Wrist p.7

Elbow p.9

Neck p.5

Shoulder p.9

Back p.4 – 5

Knee p.6 – 7

Ankle p.8 – 9

Lumbamed basic

for the back

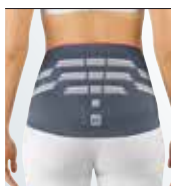

- male and female versions to ensure correct fit around waist and hips
- ergonomic hand loops to enable a tight fit even when hand strength is poor
- 4 rigid stays in the lumbar region provide robust support as required

Lumbamed plus

for the back, with massage pad

- silver male version, sand coloured female
- can be worn discretely under clothing
- massaging pad in lumbar region provides soothing relief

Optional extra Thermopad

heating pad

- hot pad can be exchanged for massaging pad in Lumbamed Plus
- provides 55° of warmth for 30-60 minutes

Lumbamed disc

Reducible stabilisation

- rigid support for back pain and sciatica
- easy to remove belt and pad system with exchangeable rigid rods means support and stability can be adjusted to suit your needs as you progress through therapy and rehabilitation

Lumbamed facet

for severe back pain

- all of the benefits of Lumbamed, plus
- unique pulley system that pulls support tighter than normally possible
- stabilises lumbar spine and prevents painful movement

Hereford collar

for the neck

- polystyrene beads perfect match your neck contours and provide great warmth and comfort

Genumedi

for the knee

- open patella ring so no direct pressure placed on the knee-cap
- thinner weave in popliteal area to prevent uncomfortable puckering at the back while your knee is bending
- anti-slip silicone beads down the side to keep the support in place while walking
- available in 3 colours

Genumedi PT

for kneecap pain

- corrects patella tilt lasting longer than taping
- adjustment straps to facilitate the correct pressure that specific silicone pads put onto vastus medialis and lateralis
- open patella ring so no direct pressure placed on the knee-cap to enhance comfort
- thinner weave in popliteal area to prevent uncomfortable puckering at the back while your knee is bending
- anti-slip silicone beads down the side to keep the support in place while walking
- available in 3 colours

Genumedi Pro

for knee cartilage and ligaments

- all of the benefits of Genumedi, plus
 - slim anatomical hinges
 - straps to provide support and compression

Manumed Active

for the wrist

- silk glove included free of charge to help when pulling Manumed Active on
- adjustable compression strap with aperture to prevent uncomfortable direct pressure on your radial styloid process
- pressure free edges to maximise comfort
- anatomically contoured plastic volar insert for maximum comfort
- no metal parts so can be worn in contact sports

Levamed Active

for the whole ankle support

- supportive figure of 8 strapping system to keep you feeling secure
- hard wearing black colour
- silicone pillows that massage the medial and lateral malleoli during gait
- thinner seams to prevent rubbing
- practical donning sock to help you pull Levamed Active on over your foot

Achimed

for the Achilles area support

- silicone pillows that massage the Achilles tendon during gait
- thinner seams to prevent rubbing
- silicone heel cups included free of charge to take pressure off the Achilles tendon
- practical donning sock to help you pull Achimed on over your foot
- available in 3 colours

Levamed

for lateral and medial ankle support

- silicone pillows that massage the medial and lateral malleoli as you walk
- thinner seams to prevent rubbing
- practical donning sock to help you pull Levamed on over your foot
- available in 3 colours

Epicomed

for the elbow

- golfer & tennis elbow
- silicone pillows massage your inflamed epicondyles as your arm bends and straightens
- adjustable compression strap to provide the required pain relieving pressure
- thinner weave in the elbow crease area to prevent uncomfortable rucking when bending your arm.
- available in 3 colours

Omomed

for the shoulder

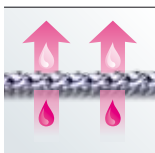

- flat seams for greater comfort.
- adjustable stabilising straps
- comfort zones on top of the shoulder

Supports from medi

Clever basics give genuine added value.

You can feel the quality: all medi supports are equipped with these functional product features.

Clima Comfort

Clima Comfort

The elaborately worked knit ensures a balanced microclimate of the skin. Moisture is transported reliably and quickly from the inner surface to evaporate from the outer surface. At the same time, the material's active breathing structure guarantees the necessary oxygen supply.

Clima Fresh

Clima Fresh

The integrated Clima Fresh function has antibacterial actions and reliably prevents odour formation. Bacteria are kept away from the knit to maintain fibre-deep hygiene.

Comfort Zone

Comfort Zone

Soft zones in the sensitive flexor areas ensure that the support does not press on or cut into the skin, even when worn all day long.

Öko-Tex Standard 100

medi supports have been tested and evaluated for human ecological harmful substances.

Made in Germany

Supports from medi are developed and produced in Germany. Carefully selected materials are made into functional everyday companions with loving attention to detail.
